# Driving Sustainability in Aquaculture

---

Benchmark  
at a glance

Our mission is  
to enable food  
producers to improve  
their sustainability  
and profitability.

By providing solutions in genetics,  
advanced nutrition and health  
which improve yield, quality,  
resilience and animal welfare.

The aquaculture industry is at an early stage with enormous potential for growth. Benchmark's solutions in genetics, health and advanced nutrition supports the needs for aquaculture producers to develop in a sustainable way.

**TROND WILLIKSEN**  
CEO, BENCHMARK

### Genetics

Improved genetics provide a crucial starting point for production efficiencies and health resilience.

### Advanced Nutrition

High performance nutritional solutions for shrimp and marine fin fish enhancing fish health and production efficiency.

### Animal Health

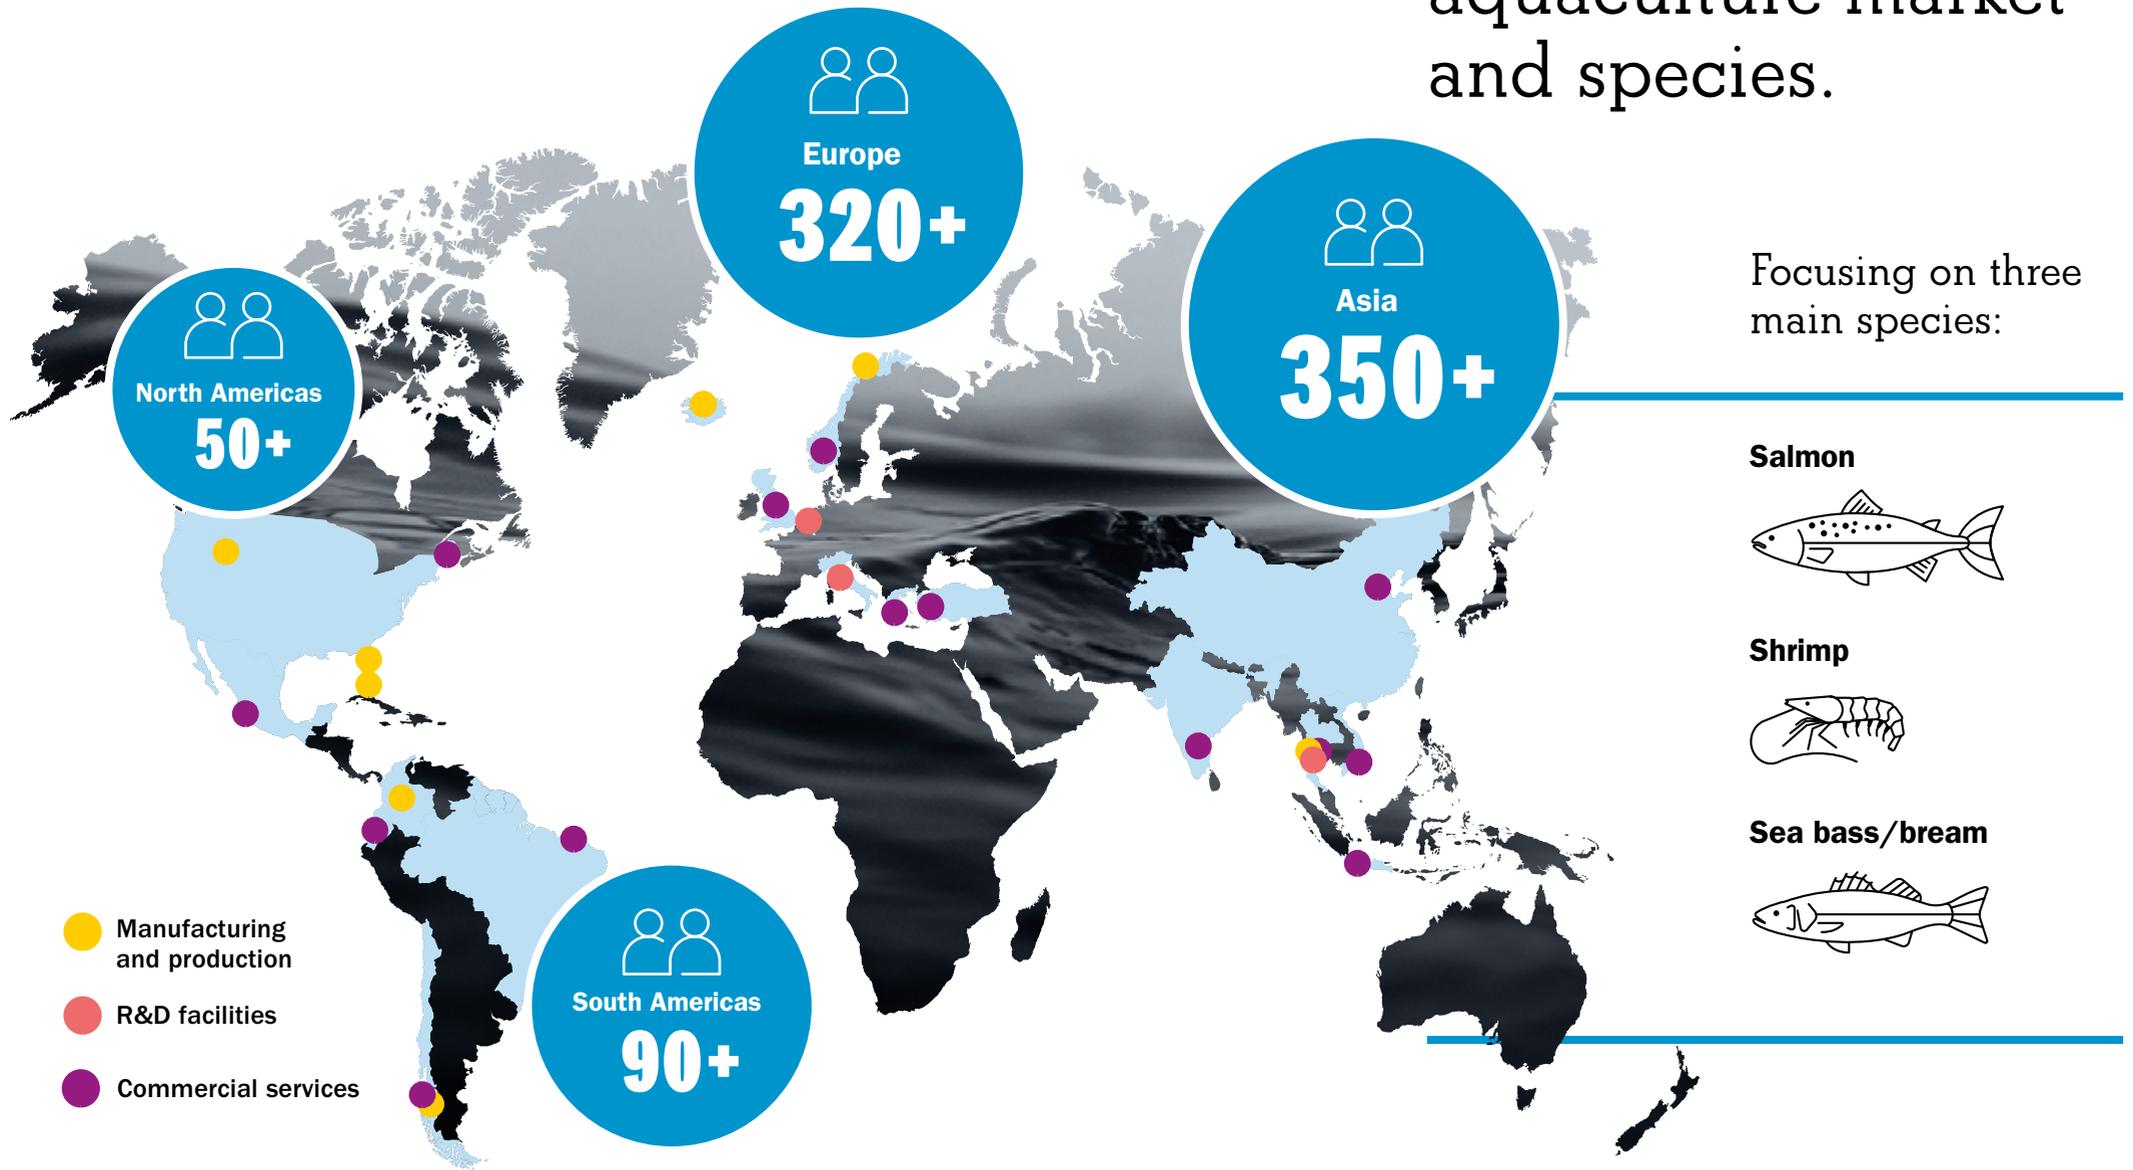

Solutions for some of the most persistent disease and fish welfare challenges.

## Global presence

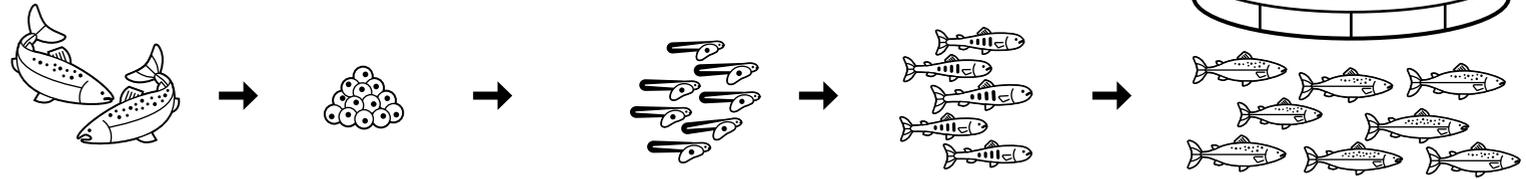

---

We are present in every major aquaculture market and species.

# Benchmark's offering

## BUSINESS AREA

### Broodstock

### Hatchery

### Nursery

### Grow-out

### OUTPUTS

#### Genetics

Improved genetics provide a crucial starting point for production efficiencies and health resilience.

Eggs, breeding (parent stock) animals for salmon, shrimp and tilapia

Genetic improvement services to a broad range of industry players across 12 species

Hatchery stage fish and shrimp

Probiotics

Hatchery diets

Enrichment diets

#### Advanced Nutrition

High performance nutritional solutions for shrimp and marine fin fish enhancing fish health and production efficiency.

Broodstock diets\*

Medicines

#### Animal Health

Solutions for some of the most persistent disease and fish welfare challenges.

Sea lice treatment

Purification system

#### Employees

Our growth and continued success is down to the hard work, talent and dedication of every member of our team. Our people strategy ensures that we offer rewarding careers where employees are motivated and inspired to make a difference.

#### Customers

Investment in our products and services has a high return relative to the substantial costs resulting from major disease challenges. Our offering drives consistency in supply and supports the long-term growth and sustainability of our customers' business — improving yield, quality and animal health and welfare.

#### Shareholders

We are securing the technology at the heart of the 'blue revolution' — driving shareholder value as the industry grows.

#### Environment

We care for our planet by operating our business responsibly and by developing sustainable solutions that tackle some of the key environmental challenges in our industry. For example, Benchmark's CleanTreat® purification system eliminates the discharge of medicinal bath treatments into the ocean and the development of modern probiotics is reducing the need for antibiotics.

\*For marine species and shrimp

# Committed to the sustainable development of the aquaculture industry
